- SGS TransitNet Service
- In Progress for SGS TransitNet Service
- Not SGS TransitNet Service

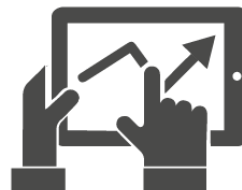

KEY FIGURES 2018 TRANSITNET

186 Employees

+500 Million Customs Guarantees

+600 Tsd. Declarations

48,9 Billion Trade Value

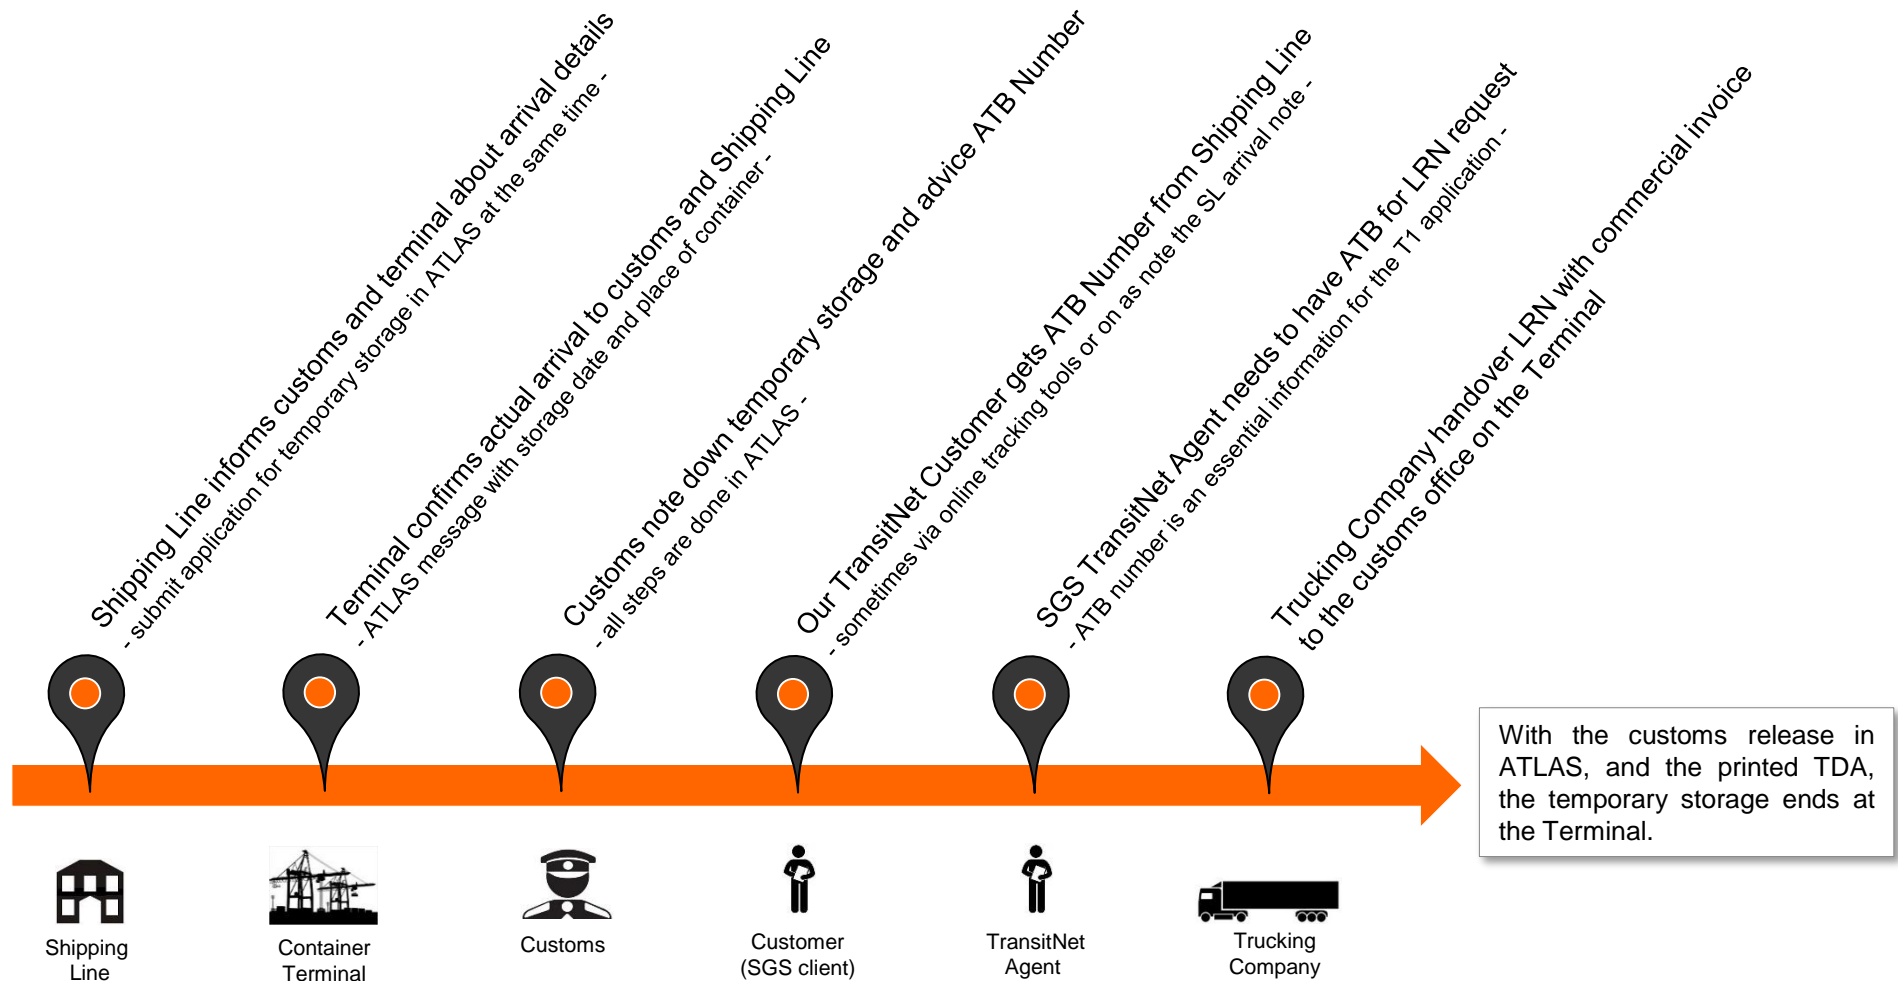

- Electronic data transfer and creation of transit procedures before arrival in Europe
- Shortening the transshipment time at the EU external border and optimizing the overall transit time
- Provision of customs guarantees
- Monitoring of transit procedures by SGS

TRANSIT PROCEDURE (INBOUND)

INTRODUCTION

- There are customs offices located at each Container Terminal area (entry/exit zone)
- An ATB number is a kind of reference number for temporary storing under customs supervision
- Required documents for opening T1 procedure at Container Terminal:
 - T1 reference number (often named as „T1 Arbeitsnummer“)
 - Copy of commercial or proforma Invoice
 - Copy of ocean bill of lading (B/L)
 - CMR Waybill
- “T1-Document” is synonymical used word for the printed Transit Accompanying Document (TDA) of the NCTS.
- In Germany the Local Reference Number (LRN) will be compiled with “MRN” as Prefix and colloquially named as “T1 Job Number”

INBOUND TRANSIT PROCEDURE SIMPLIFIED SCHEME - PORT OF HAMBURG -

TWO SERVICES – ONE PRODUCT

- *TransitNet* is a web-based application, that enables you to open and monitor NCTS transit procedures in many countries – inside and outside the EU – via a SGS guarantee.
- Our *TransitNet*-Teams provide you with operational support as required and communicate with the customs authorities in the respective national language.

- One tool for all NCTS applications in the EU
- Setup in 18 different languages
- Europe-wide uniform interface
- Monitoring of all transit procedures and status messages
- SaaS solution (no software purchase required)
- Secure Web Access
- Storage of all data and NCTS messages
- 100% traceability of customs status and profile changes (who, what and when)
- Validation of data in advance and monitoring of risks

GLOBAL TRANSIT SERVICE BASE ON THREE PILLARS

1.

The web-based and state-of-the-art *TransitNet* application connects 20 customs authorities via a single software application

2.

SGS provides guarantees for NCTS procedures in 20 countries in and outside the European Community

3.

Our customer service supports *TransitNet* customers in their local language

Using *TransitNet*, you can easily create your own transit documents in 20 countries and enjoy comprehensive SGS support
