

FORWARDNET CONNECTING NETWORKS

General Presentation 2025

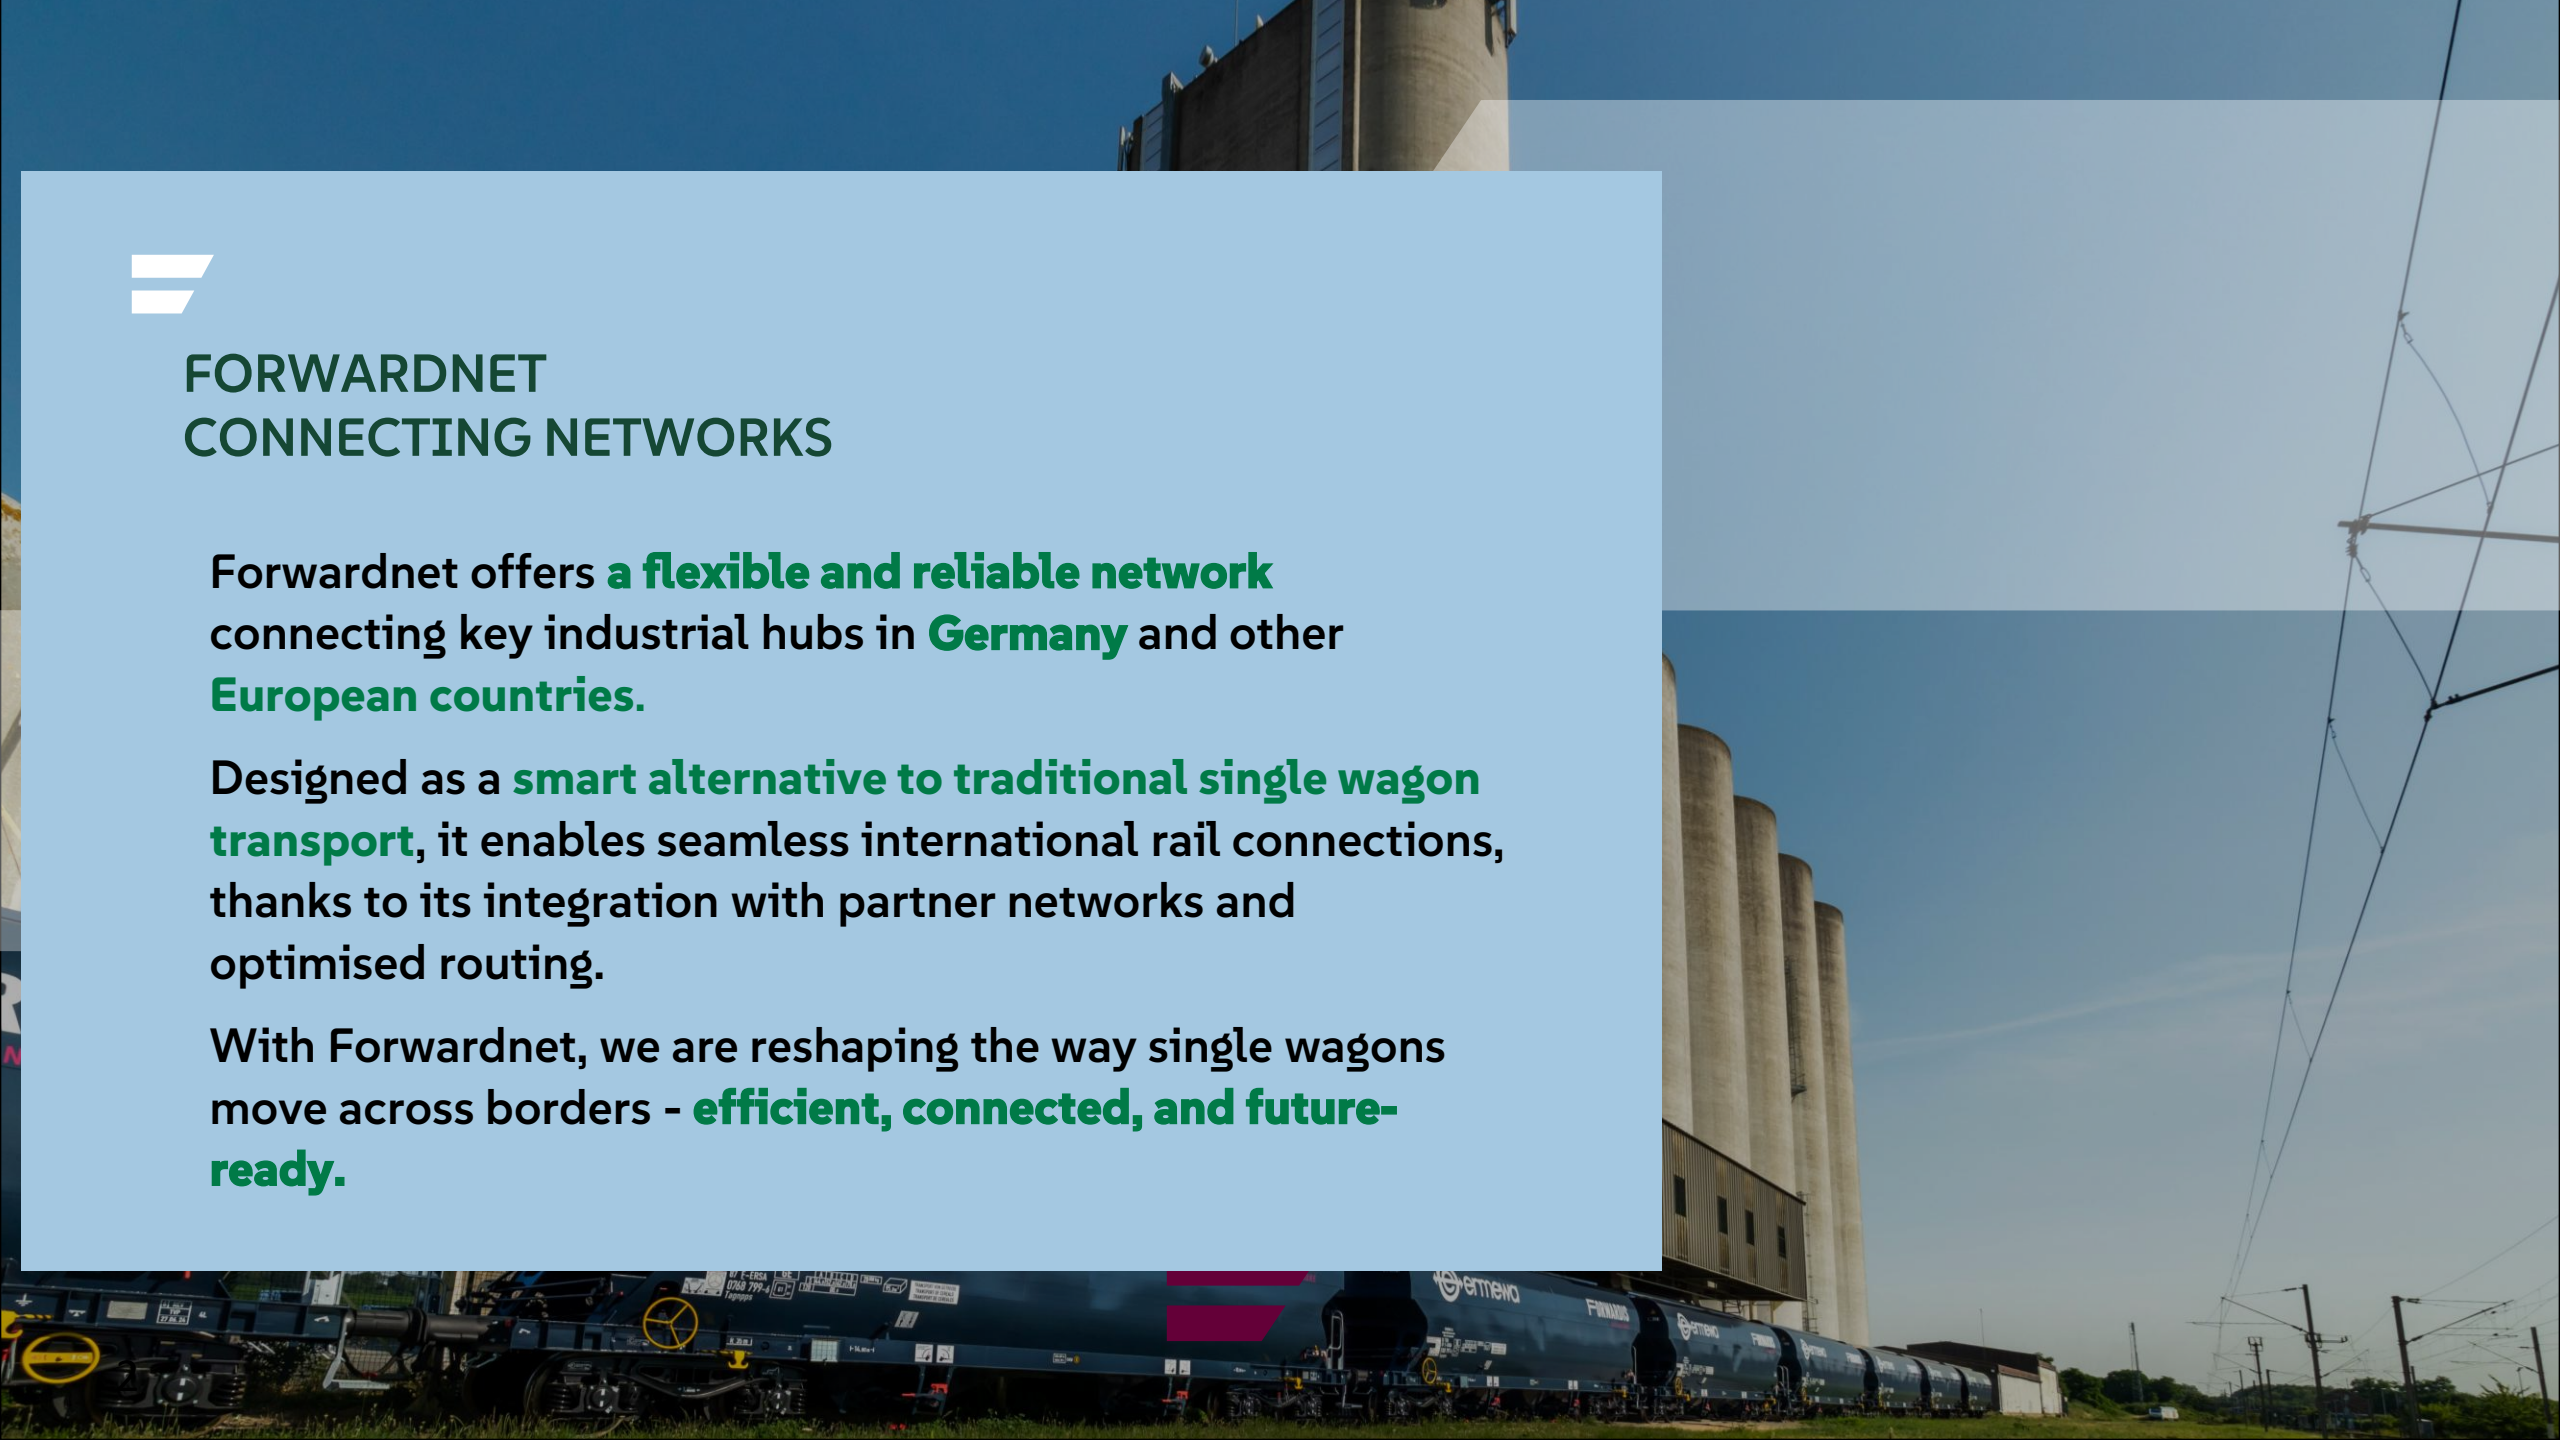

FORWARDNET CONNECTING NETWORKS

Forwardnet offers **a flexible and reliable network** connecting key industrial hubs in **Germany** and other **European countries**.

Designed as a **smart alternative to traditional single wagon transport**, it enables seamless international rail connections, thanks to its integration with partner networks and optimised routing.

With Forwardnet, we are reshaping the way single wagons move across borders - **efficient, connected, and future-ready**.

Forwardnet - Connections

Forwardnet offer : your advantage

DOOR TO DOOR TRANSPORT & INFORMATION

- Daily Track & Trace / Track & React
- Railway bills drafting (CIM/CUV)
- Possibility to book fixed capacities (wagon groups) on certain days for regular consignments
- Organisation of transshipment and truck transport where needed

FULL INTEGRATION INTO ALTERNATIVE + TRADITIONAL SINGLE WAGON SYSTEM IN FRANCE & GERMANY

- Booking and prioritisation of wagons in the HEXAFRET single wagon system (Gestion Capacitaire)
- Direct connection with DB Cargo single wagon system
- Connection to the alternative system of our partners

SAFETY

- Dangerous goods - monitoring within shunting stations and during intermediate parking
- Wagon technical inspections
- Regular training of our staff

What is particular about the Forwardnet ?

 01

OUR IDEA WAS NOT TO REINVENT THE EXISTING CORRIDORS BUT TO CREATE **SOMETHING COMPLETELY NEW.**

 04

WE WORK NOT ONLY WITH OWN SOLUTIONS BUT ALSO WITH **PARTNERS / COMPETITORS**

 02

OUR SYSTEM IS **MODULAR, FLEXIBLE AND PROFITABLE**

 05

SINGLE WAGON IS NOT DISCONNECTED FROM BLOCKTRAIN! **ALWAYS LOOK FOR REMAINING CAPACITY!**

 03

WE ALWAYS **ADAPT** TO THE MARKET

 06

WE PRODUCE **COST-CONSCIOUSLY** (BALANCE BETWEEN NORTHBOUND AND SOUTHBOUND TRAFFICS)
