

# Aare Energy Solutions AG

*We handle the complexity. You drive the growth*

## About Aare Energy

A **Swiss-based logistics company** specializing in **rail and multimodal tailored transport** solutions for the **energy and petrochemical sectors** across Europe.

We combine **operational expertise, market knowledge**, and a **flexible structure** to serve clients who value **speed, precision, and independence**.

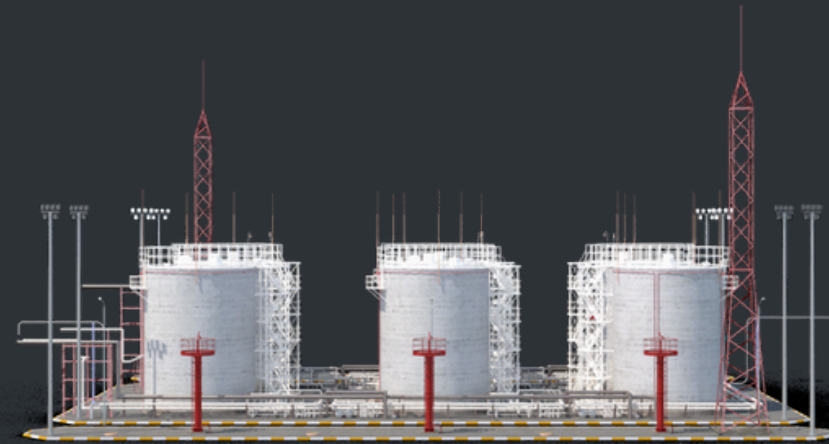

## Our story

- **Founded in 2024** as a continuation of a previous entity **established in 2020**, building on years of **experience in energy logistics and trading**.
- We bring together **professionals** who have worked both in **logistics** and **energy trading** — giving us a deep understanding of how **products behave**, how **timing affects value**, and why **precision matters**.
- Our **knowledge of the market** and its **operations** allows us to **anticipate client needs** and ensure **smooth, compliant performance** across the **supply chain**.

# What we do

## Rail & Intermodal Transport

Door-to-door logistics with a focus on rail operations across the **EU, Switzerland, and Eastern Europe.**

## Wagon Leasing

Over **100 tank wagons** by **GATX, VTG, and ATIR Rail** with short and mid-term rental and full operational support.

## Storage & Transshipment

**4200 m<sup>3</sup> tank** in Rotterdam handling **barge, vessel, wagon, and truck**, providing maximum flexibility and continuity across Europe.

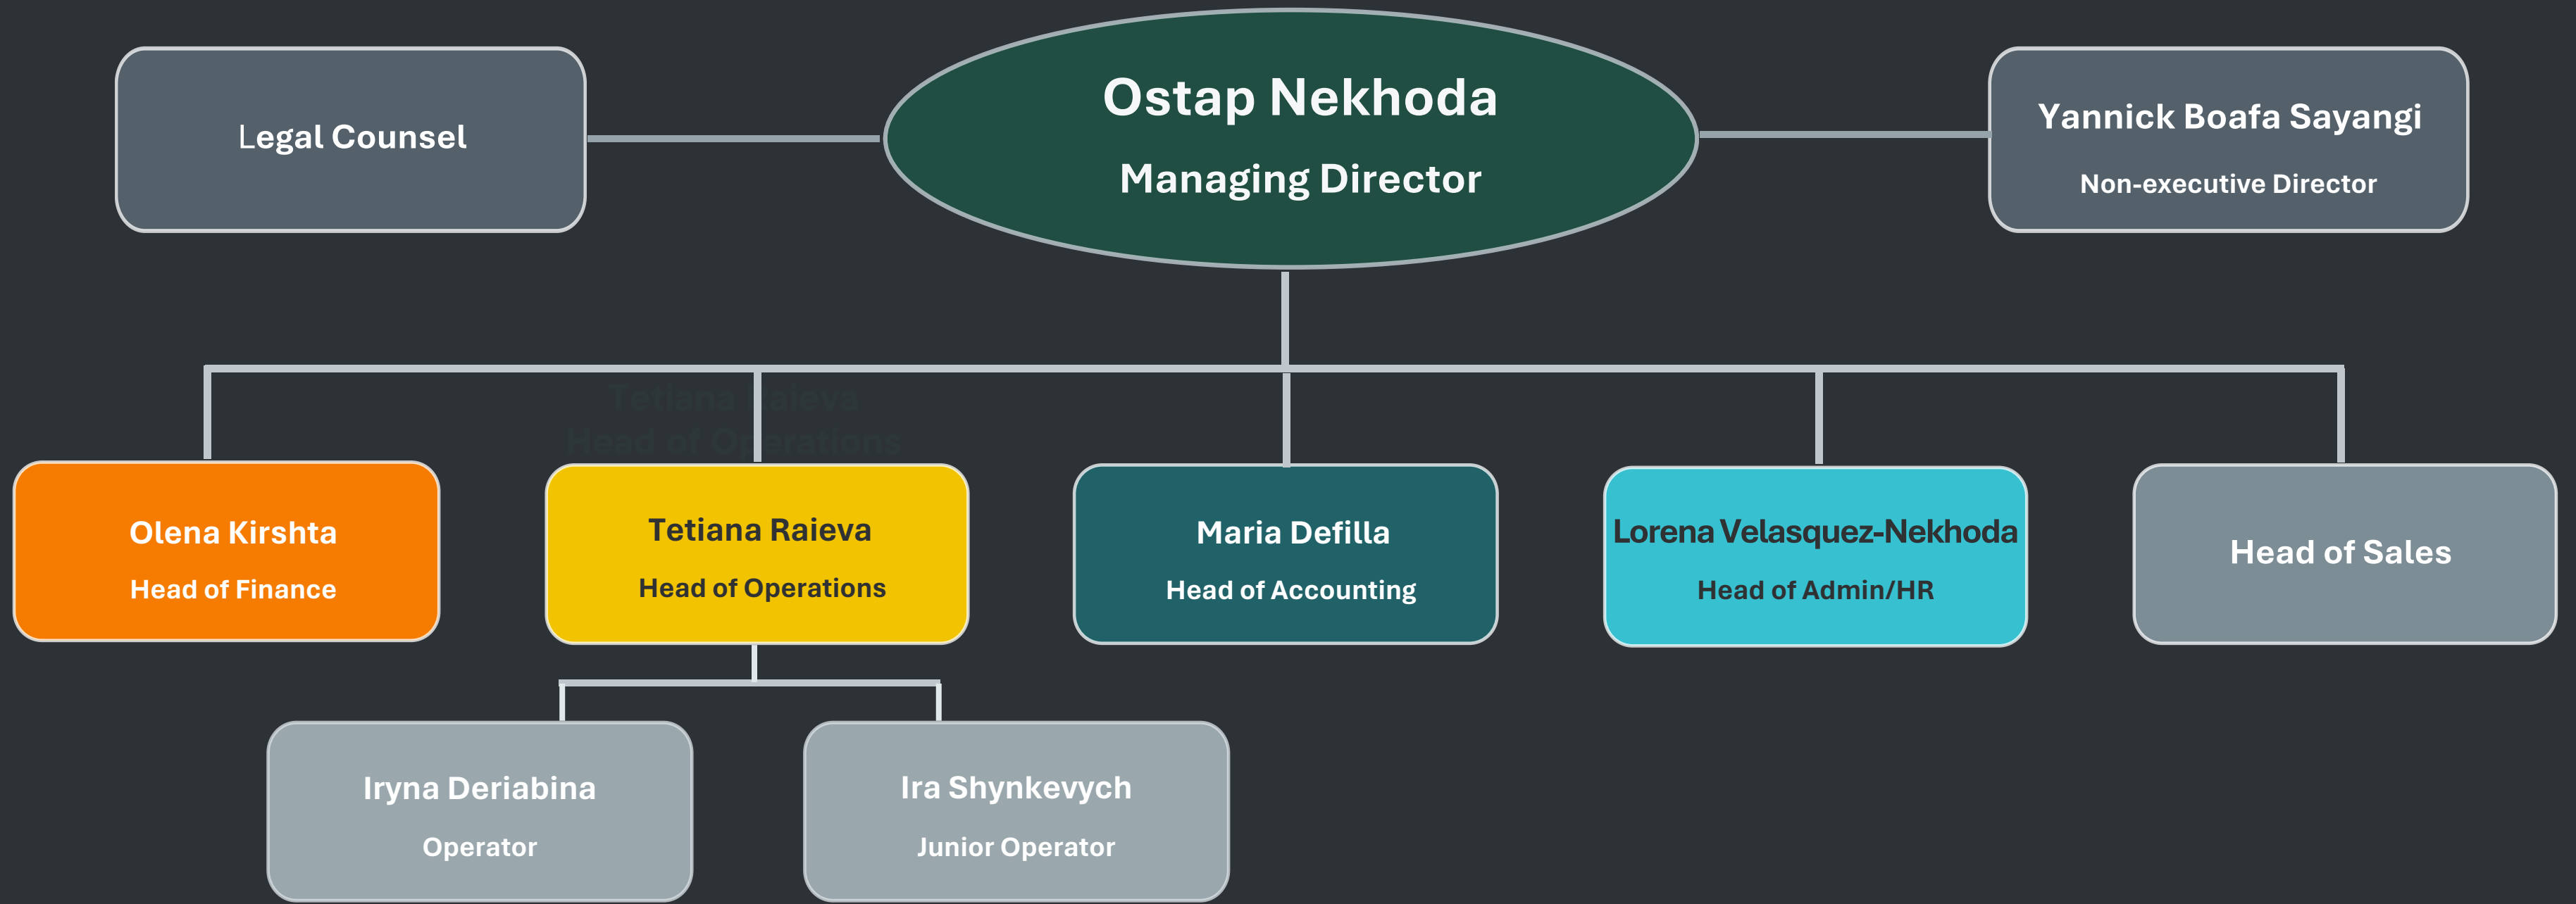

## Commodity Trading Support

Structuring and executing transport for energy traders under tight timeframes.

## Our strong side

- **Hands-On, Fast Execution.** *We react within hours, not days.*
- **Lean & Senior.** *No bureaucracy. No junior layers.*
- **Tailored Over Standard.** *We design custom logistics chains – not templates.*
- **Trust-Based Partnerships.** *Clients rely on us when failure isn't an option.*
