23.10.2026

We purchase recyclable materials and sell them at the best margin

Purchasing: Plastic, Metals and Paper volumes, e.g. films, paper/cardboard and cans

Sales: Our customers are recyclers who produce new products from the raw materials, e.g. packaging with recycled content, film manufacturers or plastic injection molders.

What do we trade: waste, products, regrinds, flakes and pellets.

We trade over 400,000 tons annually in more than 80 fractions

> 400 kt/a

Trading of post-consumer-commercial, post-industrial plastics and recyclates

> 80 fractions

Focus on PET, Paper and LDPE

Overview of Main Fractions

PET-Bottles und Flakes

Waste Paper/ Cardboard

LDPE-Films

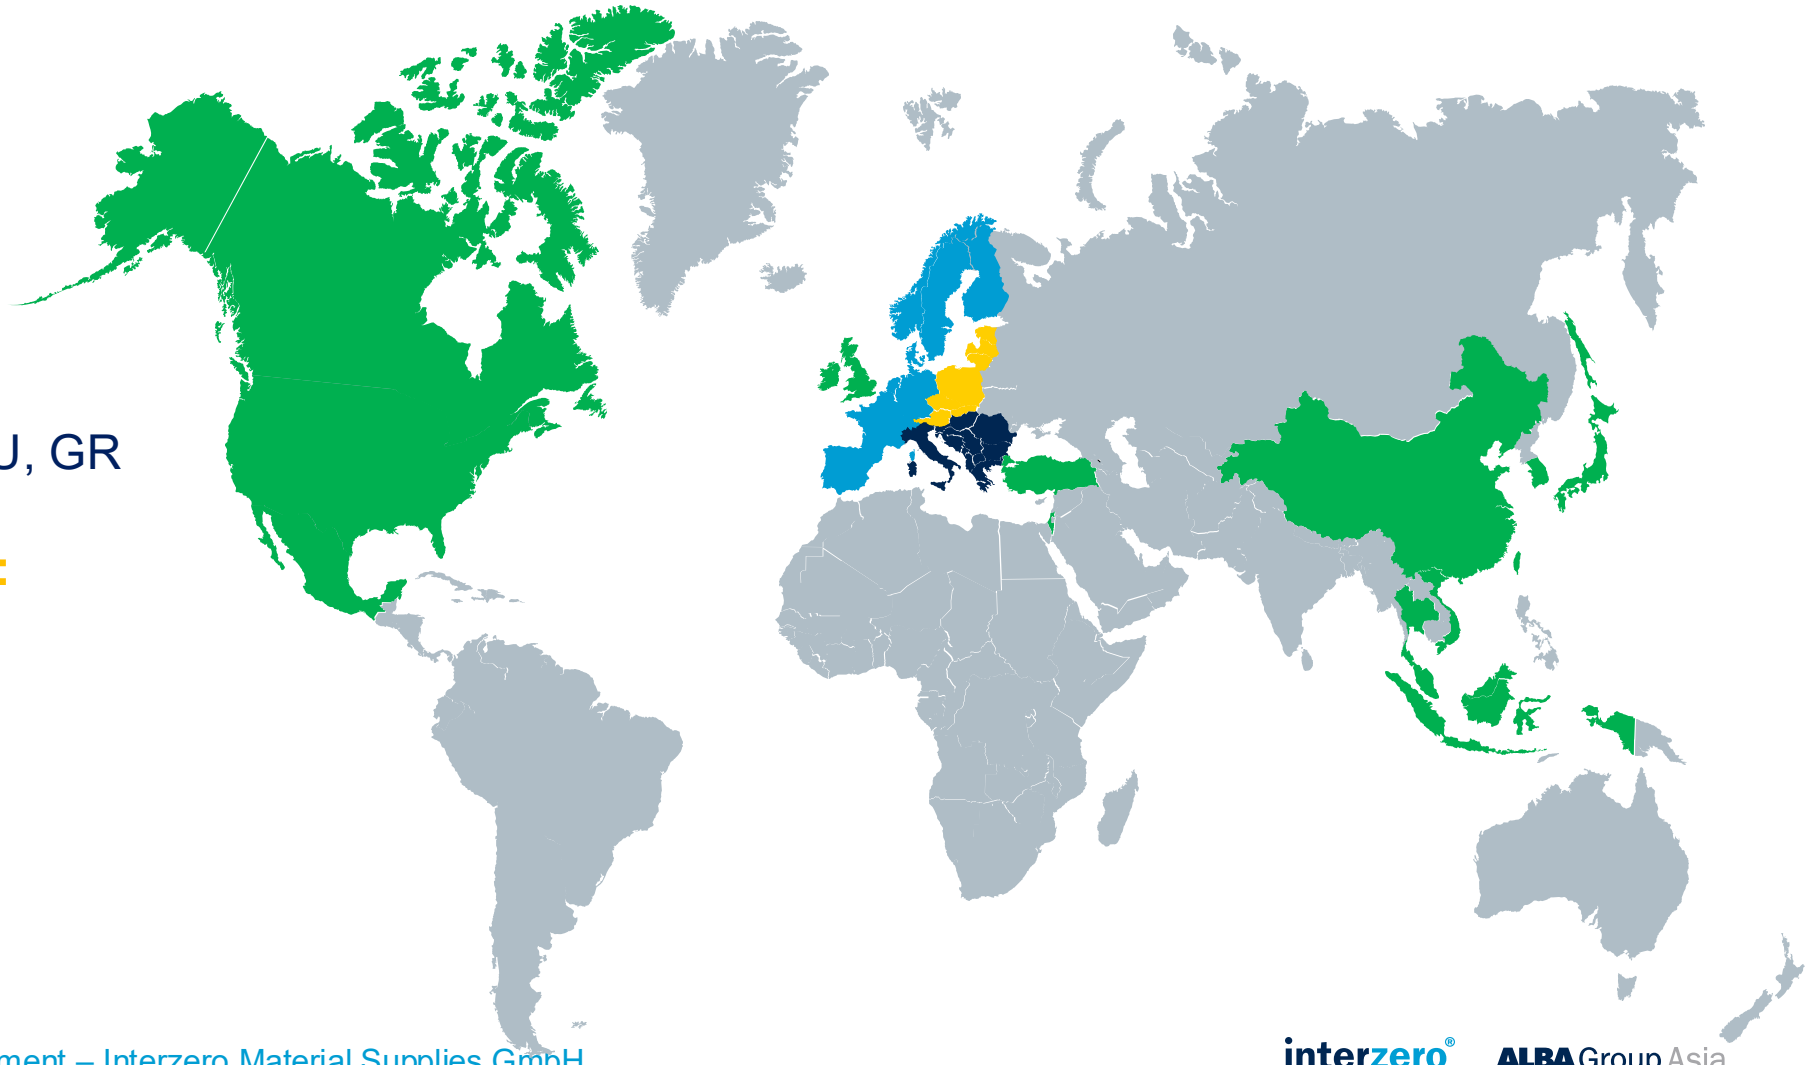

With 4 regional teams, we are active worldwide

North & West Europe (NWE):
DE, CH, FR, ES, PT, Benelux, Scandinavia

South East Europe (SEE):
IT, SI, HR, SR, SK, HU, RO, BU, GR

Central & East Europe (CEE):
AT, CZ, PL & Baltics

Global Markets (GLO):
UK, TR, Asia, MEA, Americas

interzero® ALBA Group Asia

Interzero as supplier and service provider to paper mills

Interzero and **their clients** close the loop for paper packaging.

Interzero collects **paper waste** and delivers it to paper mills, where it is processed into **new packaging** material used by clients.

In this way, local material cycles can be closed, **reducing CO2 emissions** due to shorter transport routes.

AI- Generated

Current Situation

Cost are rising

- Truck freight rates remain volatile
- Big pressure through petrol prices, tolls and CO2 taxes
- Change to e-truck is still not valueable
- Volume > Supply

Regulatory matters

- DIWASS regulatory creates a new obstacle
- CSRD requirements and Scope 3 emissions are driving the decarbonization of supply chain

Transport type	Co2 to per 100 KM
LKW standard	0,11
LKW with HVO100	0,022
LKW with electro	0,011
Rail Cargo	0,011

Diverse Relations

The Interzero has big potentials through their companys.

Our goal is to combine CO2 reductions with cost savings.

Innovative Business and Service Development in European Rail Freight Transport

New Markets

Recycling and waste market with a focus on rail

- Identification of existing regular transports along promising corridors
- Use of nearby railway sidings for loading and unloading
- Adaptation of packing systems for rail transport
- In-depth customer consultancy during the start-up phase
- Cloase cooperation between customers, rail carriers and freight forwarders
